

A large, grey, rectangular metal cabinet is shown outdoors on a wooden pallet. The cabinet's left door is swung open to the left, revealing a large, empty interior compartment. The interior has a flat bottom and a dark grey back panel. On the back panel, there is a circular opening with a mesh screen. The cabinet has a sturdy frame with four legs. The background shows a paved area and some greenery.

**A dual purpose
cabinet- tank fill/spill
containment, and secure
equipment storage.**
